

Wick Guide

PREMIER 700 WICKS

Premier 700 wicks are constructed from the finest textile-grade braided cotton, which provides a cleaner burn. Premier wicks are designed to bend while burning and are coated with a high melt wick wax for added stability.

	Pool Diameter (IN)	Flame Ht. (IN)	Rate of Consumption (oz/hr)
WI-755	2.19"	1.50"	0.22
WI-765	2.26"	1.63"	0.27
WI-767	2.30"	1.78"	0.28
WI-770	2.33"	1.80"	0.28
WI-775	2.36"	1.81"	0.29
WI-777	2.38"	1.83"	0.29
WI-790	2.50"	1.91"	0.31
WI-793	2.53"	1.96"	0.31
WI-795	2.56"	2.00"	0.32
WI-798	2.58"	2.38"	0.32

*The data provided in this document are meant to serve only as a guide for our customers to assist them in wick selection. Many variables exist in candle wax types, additives and formulations for individual candle systems. Final wick selection should always be confirmed through the customer's own testing process to determine if a particular wick is the best choice for a particular candle system. Fillmore Container is not responsible for selections made by the customer using any of the reference material contained in this document. For optimal burn performance in specific candle systems, we strongly recommend that customers conduct extensive burn test in their own burn lab. **The importance of candle testing cannot be overstated.***
