# superb® Seal-It-Right Technology

BluSeal™ Integrity

- Proprietary seal formulation with ingredients that are FDA compliant for food contact.
- More sealing power.
  - *14% more contact area to ensure seal fits on all jar sizes*
  - *24% more sealing material by weight*
  - *25% more sealing material by volume to facilitate seal integrity*
  - *High molecular weight formulation*
- High temp formulation to ensure material integrity during high pressure canning.
- Enhanced venting during canning process to facilitate vacuum seal and prevent buckling.

"Pop"Lok™ Assurance

- Distinctive "pop" feature provide audible and visual assurance of seal integrity.
- Calibrated to meet FDA 3 psi vacuum standards for home canning.

QuinTek™ Protection

- Five layers of corrosion protection.
- Two layers of exterior protection.
  - *Food grade Electroplate*
  - *Classic Gold BPA free top coat*
- Three layers of interior protection.
  - *Food grade Electroplate*
  - *BPA free base coat*
  - *BPA free top coat*
- Validated by third party testing labs.
